4" DESKTOP DIRECT THERMAL LABEL PRINTER HISTORIC RELIABILITY AT AN AFFORDABLE PRICE

TDP-244 DESKTOP DIRECT THERMAL BAR CODE PRINTER

TSC is pleased to introduce the TDP-244 direct thermal desktop printer. In typical TSC fashion, the TDP-244 offers a perfect combination of ultra low cost with a durable and reliable design.

TSC has been leading the way in 4" direct thermal desktop printers since the introduction of its best selling TDP-245 model in 2002. The TDP-244 is a new economy version of the proven TDP-245 architecture which has an installed base of over 100,000 printers.

The new TDP-244 printer features 203 DPI resolution, print speeds up to 4 inches per second and high speed USB 2.0 connectivity. Its large 60 watt power supply produces high quality printed labels.

The TDP-244 is an ideal printer for product marking, shipping, retail and other labeling applications at the best price anywhere. For easy loading, the TDP-244 employs a userfriendly double-wall clamshell design with a large five-inch (outside diameter) center-biased media bay. Top-of-form sensing – by gap, black mark, or notch – is standard and completely adjustable from side to side. It also comes with a head-open sensor.

PRODUCT

The TDP-244 has plenty of memory with 8 MB DRAM and 4 MB FLASH that can be used for easy storage of fonts, international character sets and graphics, and it supports, "right out of the box," a fully compatible set of standard industry emulations, including Eltron[®] and Zebra[®] languages, making it easy to replace old installed hardware.

Key Printer Features

- ▶ Direct Thermal Print Technology
- High quality double walled clamshell design
- ▶ Easy media loading
- Head-up sensor
- ▶USB 2.0 connectivity
- ▶8 MB DRAM, 4 MB FLASH memory
- Standard industry emulations right out of the box including Eltron[©] and Zebra[©] language support

SPECIFICATIONS

1	SPECIFICATIONS		
	Printer model	TDP-244	
	Resolution	203 DPI	
	Printing method	Direct Thermal	
	Print speed	2, 3, 4 ips 2, 3 ips selectable with peel function	
	Max. print width	108 mm (4.25")	
	Max. print length	2,286 (90")	
	Enclosure	Double-walled plastic	
	Physical dimension	240 mm (L) x 200 mm (W) x 164 mm (H) 9.45" (L) x 7.87" (W) x 6.46" (H)	
	Label roll capacity	127 mm (5") OD, 25.4 mm (1") ID core	
	Processor	32-bit RISC CPU	
	Memory	 4 MB FLASH memory 8 MB DRAM SD card slot for memory expansion 	
	Interface	• USB 2.0 (full speed mode)	
	Power	AC input: 100-240V universal switching power supply DC output: 24V 2.5A (external adaptor)	
	Operation switch, button	One power switch & feed button	CERTI
		•Gap transmissive sensor (offset 6 mm from center)	
	Sensors	 Black mark reflective sensor (position adjustable) 	
		•Head open	
	Internal font	•8 alpha-numeric bitmap fonts
